

QUICKLY REDUCES CHLORINE

# Chlor•Nix

## *Concentrated, Maximum Strength Formula*

**The solution to high chlorine levels has arrived! Chlor-Nix by Lo-Chlor® was created to quickly reduce chlorine levels into a desired range.**

A high chlorine level in a pool creates problems: it prevents the best metal stain removers from doing their job and it makes water unpleasant for bathers. In commercial pools, exposing bathers to high chlorine levels may also be a violation of local law.

Chlor-Nix drops chlorine levels in just minutes. Fast action means that stain treatments like Multi-Stain Remover by Lo-Chlor® can be used without lengthy delays, and bathers can re-enter pools quickly after a shock treatment.

- **Lowers chlorine and bromine levels**
- **Fast acting**
- **Perfect for reducing chlorine shock**
- **Ideal for use with Multi-Stain Remover**
- **Works with salt systems**

Chlor-Nix is concentrated; use just two ounces (about two capfuls) to reduce chlorine by 1 ppm in 15,000 gallons of water. Our wide-mouth 1 lb. bottle fits comfortably in your hand for easy dosing directly into the water.

**Convenient 1 lb. Size**
