

ALL-IN-ONE POOL ENHANCER Salt Master®

Perfect Pool Water Treatment for Salt Pools

Choose Salt Master® for pool maintenance of the highest standard! This unique formula replaces the need for cell cleaning, and contains an oxidizer, phosphate remover, scale inhibitor and clarifier – all in one!

Salt Master improves water quality week by week, with noticeably cleaner, clearer water. Just one weekly dose boosts performance and decreases the frequency of necessary balance adjustments and cleanings.

Although salt pool maintenance is easier, more convenient, and less time consuming than for traditional chlorine pools, these pools do need salt-specific additives to run optimally and efficiently. Pools often experience a high pH level, which causes scaling and other troublesome issues that can be avoided.

Salt Master is compatible with ALL pool surfaces and equipment.

- **Boosts water quality & clarity**
- **Manages pH fluctuation**
- **Saves up to 40% acid**
- **Strongest scale remover available**
- **Extends life of salt chlorine generator**
- **Keeps phosphate levels low**
- **Contains oxidizer for exceptional water quality**
- **A single weekly dose gives you outstanding results**
- **Safely swim right away**

ENERGY SAVINGS:
Most salt chlorine generators can be operated at lower settings after using Salt Master for just a few weeks

Get the ideal blend of pool water enhancing agents made specifically for salt pools.
